CE	15C	2412.0 - 2462.0	0.205		

Power Output listed is Conducted. This transmitter is authorized only for use in mobile configurations. Only those antenna(s) listed in the filing may be used. The maximum gain antenna that may be used with this transmitter is 18dBi. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 33 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

CE: This device has shown compliance with the conducted emissions limits in 15.107, 15.207, or 18.307 adopted under FCC 02-157 (ET Docket 98-80). The device may be marketed after July 11, 2005, and is not affected by the 15.37(j) or 18.123 transition provisions.
